Usama Zafar

Senior Software Engineer

About Me

Hello! I'm Usama Zafar. I am passionate about Federated Learning and Parallel Computing. I am a skilled **back-end developer** with over 10 years of software development experience. I am an expert at C, C++ and Python programming languages. I am a quick learner and a team worker that gets the job done.

Having worked at the largest software organization in Pakistan (NETSOL Technologies), I have hands on experience of the entire software development life-cycle.

Bio

Age	30
Email	usamazf@outlook.com
Phone	+92-311-4683025
Address	E-38, Dream Gardens, Askari Bypass Road, Multan, Pakistan

Areas of Expertise

- Machine Learning
- Federated Learning
- Data Visualization
- Computer Vision
- Open-source Development
- Parallel Processing
- Distributed Computing
- CUDA Development
- Backend Development
- API Development
- Datascraping
- Blockchain
- Deep Learning
- Automation

Work Experience

Freelance Developer at Freelancer.com

Dec, 2021 - Present

Worked at freelancer.com as freelance developer. Handled over 50 projects with 100% client satisfaction in the domains of computer vision, machine learning, automation, data-scraping, backend development. Based on my skills and performance, I am currently listed among top 1% freelancers on the platform.

Software Engineer at NETSOL Technologies Inc.

Oct, 2015 - Aug, 2017

Worked as a Software Engineer for the company's major product line: LeasePak (a lease management software with diverse clientele). Was actively involved in back-end development using C programming language as well as front-end development using VB6 and VB.NET. Was actively involved in research and development work of the product. Also had the experience of training new employees and helping out colleagues with tasks they couldn't handle.

Internee at Microsoft, Pakistan Chapter

Mar, 2014 - May, 2014

Development of Windows based mobile applications.

Education

Doctorate in Computer Science from Tsinghua University, China

2019 - 2022

Continued my research in Distributed Machine Learning at system level and took up the challenges of the new domaing Federated Learning. Proposed and submitted a paper on Incentive Mechanisms for FL training on block-chain. Furhtermore, conducted research to enhance in privacy, robustness and performance of FL systems.

Masters in Advanced Computing Science from Tsinghua University, China

2017 - 2019

Conducted research in Distributed Machine Learning, with special focus on synchronization algorithms. Designed and laid theoretical foundation for progress based synchronization to replace the current mandatory clock-based synchronization algorithms. Achieved significant performance boost for data-centric environments by reducing the delays incurred due to unnecessary waiting in clock based synchronization mechanisms.

Bachelor of Computer Software Engineering from National University of Sciences and Technology (NUST), Pakistan

2011 - 2015

Finished bachelor's degree in Software Engineer with distinction. Was awarded Chancellor's Silver Medal for outstanding academic record. Was also actively involved in Coding camps both as a learner and later as an instructor.

Reviews

Garrett
Client at Freelancer.com

> Usama is great to work with. Not only did he deliver the project perfectly but delivered it ahead of the deadline. After completion I had some other unrelated problems and he also helped me sort through those. I highly recommend this freelancer. Great communication, great work.

Daniel
Client at Freelancer.com

> From the start he was very professional and knew exactly what he was talking about. He delivered what he had promised and before the time set from the start. The code works perfectly and are very well written. I absolutely recommend him! ...

Tom
Client at Freelancer.com

> Usama was great, I couldn't recommend anyone more highly.

Muntjac
Client at Freelancer.com

> Excellent work! Very technically skilled and very detailed oriented. Developed a very helpful and efficient solution. Very highly recommended!
